P/W SITUATION REPORT

The attached chart is intended to summarize briefly the position of the most important P/Ws with whom TICOM has been in contact, and to serve as a guide for ready reference to those concerned.

Personnel still figuring on the Brown List are not included but will be added as and when they are apprehended.

"Norway party" of 35 German P/Ws awaiting interrogation at Oberursel has been withheld from this list pending more accurate data on individual personnel.

It is suggested that this list can be kept up to date from collateral information but revised charts will be issued periodically.
